WORK EXPERIENCE (Full Time)

Technical Project Manager | Scrum Master | Price.com | Nov 2023 – June 2025

- Led cross-continental Agile teams in managing over 400M+ data points, improving delivery predictability by 25% through optimized sprint ceremonies (stand-ups, retrospectives).
- Drove the integration of an AI performance module, cutting data processing time by 30% and significantly boosting platform scalability across regions.
- Facilitated all Scrum ceremonies, including sprint planning, daily stand-ups, and retrospectives, to maintain team velocity and remove impediments.
- Presented technical roadmaps, project milestones, and performance metrics to C-suite executives and key stakeholders, ensuring alignment between technical execution and business objectives.

Technical Project Manager | Scrum Master | UFO Games Pvt Ltd | May 2022 – Nov 2023

- Managed the end-to-end technical rebuild and release of a real-money mobile gaming app, resulting in a 50% increase in Daily Active Users post-launch.
- Oversaw technical compliance, game logic balancing, and growth initiatives, contributing to a 20% increase in Average Revenue Per User (ARPU).
- Provided critical technical support for funding campaigns and investor demos, contributing to the successful closure of a new funding round.
- Directed the technical revamp and maintenance of the internal SharePoint knowledge base and the external WordPress company website, improving information accessibility.

Project Manager / PHP Developer | NGN TECH | Mar 2018 – May 2022

- Managed the full-cycle development for 10+ client business platforms, achieving a 95% on-time project delivery rate.
 - Coordinated full-stack development teams (UI/UX, backend, deployment) to build and launch robust e-commerce and logistics solutions that cut client operational costs by up to 40%.
 - Served as the primary client liaison, translating complex business requirements into detailed technical specifications and project backlogs.
 - Engineered UX improvements that led to a 60% decrease in user abandonment on critical application pages.
-

PROJECTS MANAGED (Personal & Freelance Projects)

AI-Powered Accounting Software | *Product Owner* | 2021 – 2022 Directed a team to build an AI accounting tool that cut client accounting time by 70% and reduced development cycles by 25% through tight business-technical alignment.

Real Estate Platform – Canadian Market | *Product Owner* | 2020 – 2021

Managed a 20+ member team to develop one of Canada's leading real estate apps, overseeing the full project lifecycle to significantly scale user adoption in a competitive market.

AI Project Management Assistant | *Developer & Product Owner* | 2025

Built a self-hosted AI project management tool using PHP and OpenAI APIs to automate reports, featuring a lightweight, JSON-based data storage system.

Zomato / Swiggy Clone | *Flutter Developer* | 4-Month Contract

Took over lead development for a food delivery app, successfully building and deploying the production-ready Flutter application on both Android and iOS.

E-commerce for Indian Force Uniforms | *Developer* | 20-Day Contract

Developed a niche WordPress e-commerce site and used digital marketing to establish it as a top online destination for Indian uniform procurement
